

effeff's Mediator

Mediator with multi-point locking
– now three times safer.

ASSA ABLOY

ASSA ABLOY, the global leader
in door opening solutions

For even greater security!

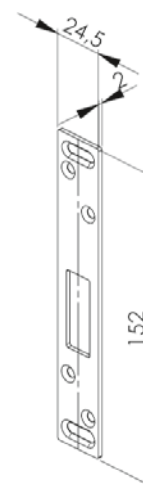

The MEDIATOR multi-point locking system ensures even greater protection and convenience

Overview of advantages

- Self-locking system: The door is always locked.
- Increased intrusion protection due to 3-point locking system.
- Safer escape routes: The door can be opened without a key from the inside at all times.
- Highly convenient: although permanently locked, the door can be easily opened from inside apartments via the electric strike.
- Additional rigid hooked bolts for higher intrusion protection. But, the hooked bolts are not able to force the doorseal against the leaf. The system only works reliable without transverse load against the hooked bolts.

Technical Specifications

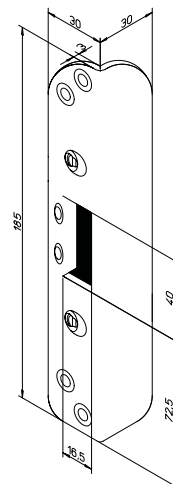

Backset	30 / 35 / 40 / 45 / 65 / 80 / 100
Distance	92 mm
Bolt	3 mm
Bolt throw	20 mm
Hook bolt throw	24 mm
